REACH Regulation (EC) 1907/2006

Date of Issue: 24 August 2021

The Electrolizing Corporation of Ohio meets the requirements set forth in the European Regulation 1907/2006 on Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) entered into force on June 1, 2007.

Under the REACH regulation, we are a supplier of "articles" to our customers. We do not manufacture or supply "substances" or "preparations," and the articles do not involve the "intentional release of substances". Accordingly, we foresee no registration or pre-registration requirement for the coatings we provide.

To the best of our knowledge, our coatings requiring REACH compliance do not contain Substances of Very High Concern (SVHC) in concentrations of 0.1% or above.
